#### what is filorga

135 and 135 HA are indicated to be injected in the epidermis or dermis in the following areas : Face (including periorbital area), Neck, Décolleté area, Back of the hands, Internal face of the arms. is a skin booster treatment to promote radiant and hydrated skin. It is a unique anti-ageing cocktail of 59 ingredients, all of which are naturally occurring vitamins and minerals within your body – which is why our bodies absorb it so efficiently.

#### How to use

You should expect to return to the doctor between 3 to 15 times. At first, you'll get the injections every 7 to 10 days. If your skin starts to improve, the treatments will be stretched out to once every two weeks or once a month.

#### how long lasting

Mesotherapy is series of micro-fine injections into the superficial skin layers to place nutrients right where they are needed to nourish and rejuvenate the skin. For best results a course of 3 treatments is advised every two weeks with maintenance treatments 1-2 times a year.

#### Effects

This treatment is indicated in cases of lack of radiance, dehydration, sagging skin, density loss, loss of skin tone, skin suppleness
